#SITROOM

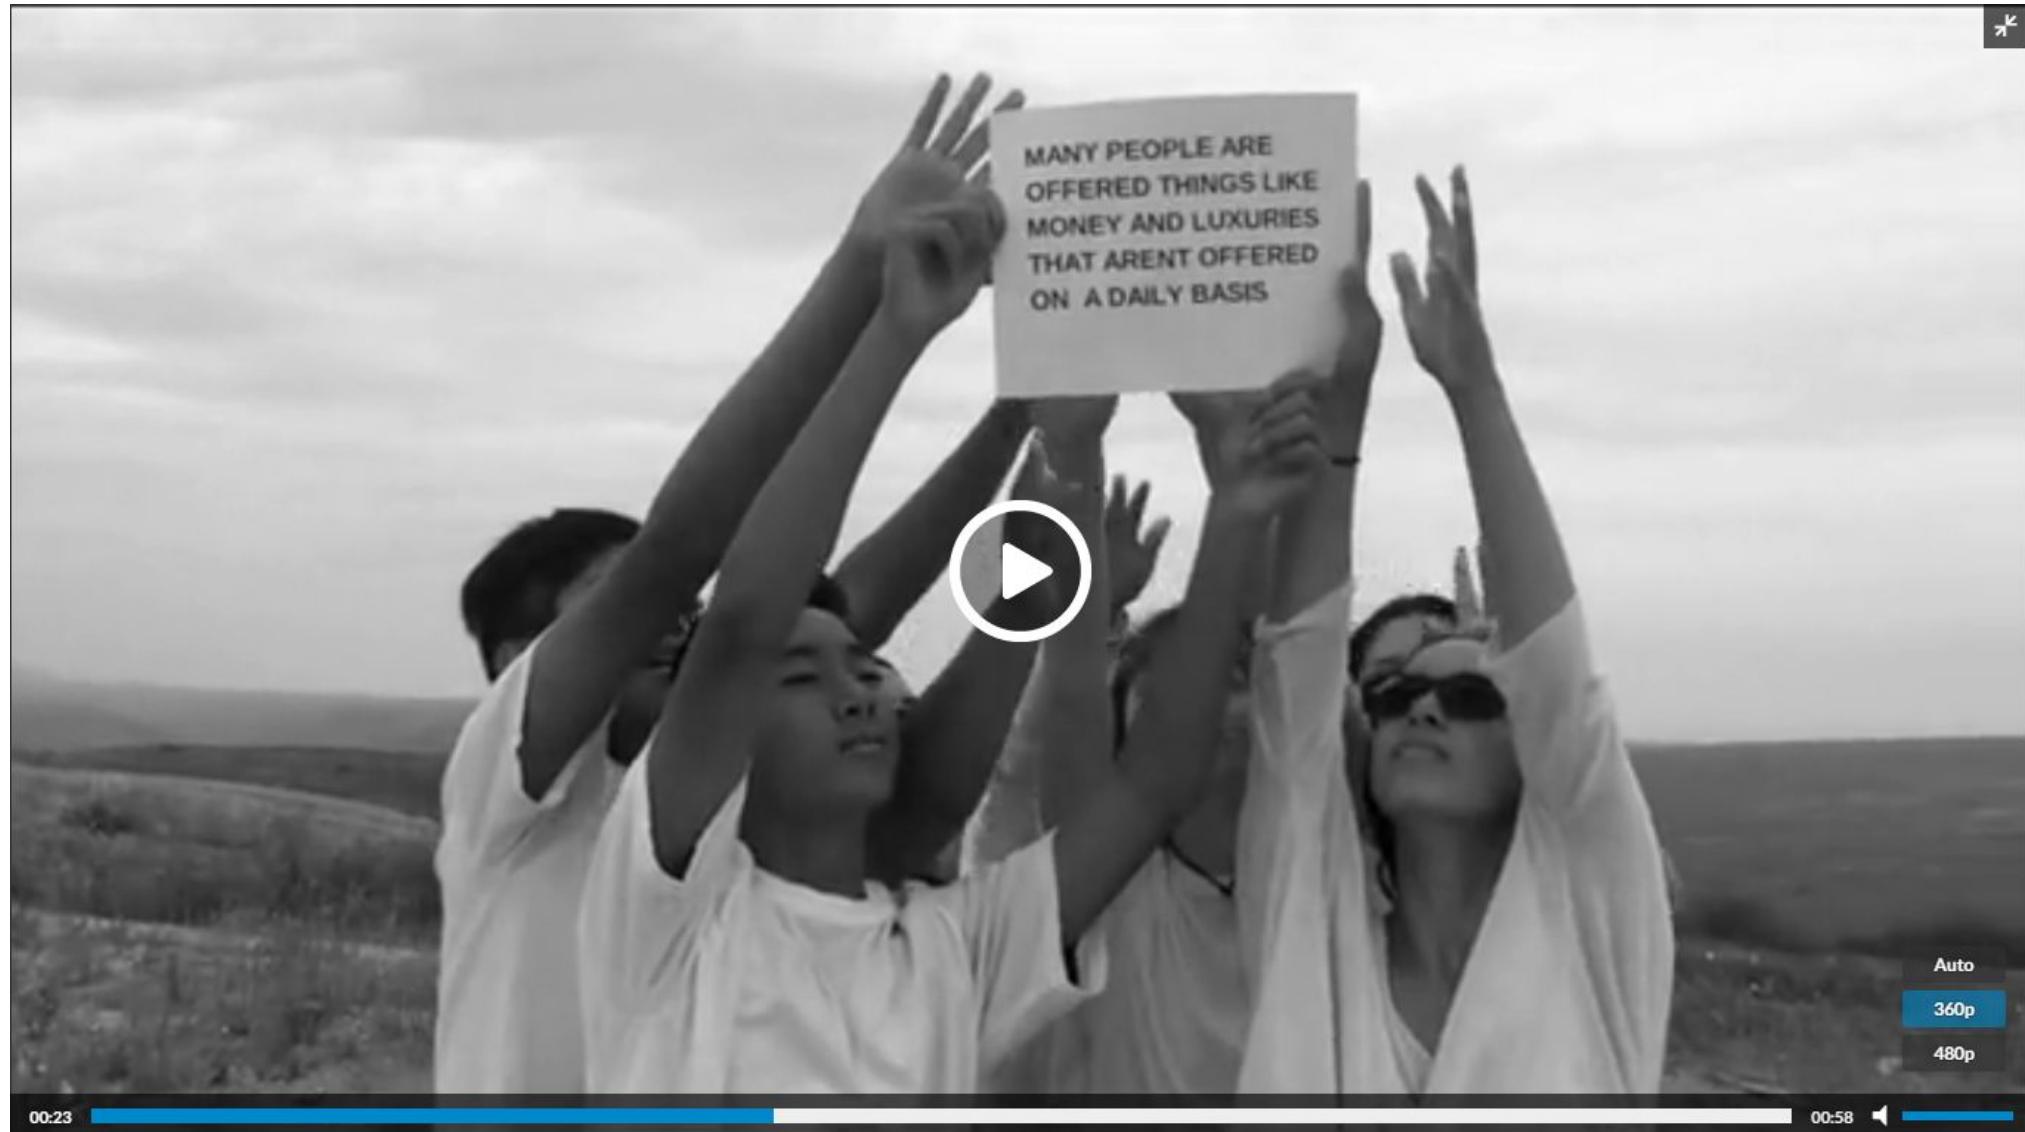

In this scene we are showing how every 3 out of 4 people join ISIS because encouragement from friends and family. We are showing how a lot of ISIS members are ISIS members because of peer pressure from people they are close to.

With this footage we are helping the last scene by showing when the people are walking away, they are going to become ISIS members. We feel like this is good stock footage to show that those people are going to ISIS.

In this stock footage we show how ISIS workers are working forcefully from peer pressure and you can see that by the way that they are working and the emotion they are expressing.

In this scene, we wanted to show how the people who joined ISIS were putting their greed or their needs ahead of their morals and principles. We asked the actors to raise the "money and luxuries" high above their heads, showing that they were putting those

things “above” all else.

This is home footage of James Foley, the American journalist who was killed by ISIS. We chose this footage because we wanted people to see him as a human being and understand the tragedy and cruelty behind his death.

Purpose of our Silent Film

The purpose of our film is to inform the general population about why people in the past followed cruel leaders, and why people are currently following cruel leaders.

Leaders become great, not because of their power,
but because of their ability to empower others.
